Certification Regarding Eligibility  
To Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974, as amended ("Act"), 19 U.S.C. § 2273, the Department of Labor herein presents the results of an investigation regarding certification of eligibility to apply for worker adjustment assistance.

The group eligibility requirements for workers of a firm under Section 222(a) of the Act, 19 U.S.C. § 2272(a), are satisfied if the following criteria are met:

(1) a significant number or proportion of the workers in such workers' firm have become totally or partially separated, or are threatened to become totally or partially separated; and

(2) (A) (i) the sales or production, or both, of such firm have decreased absolutely; and

(ii) (I) imports of articles or services like or directly competitive with articles produced or services supplied by such firm have increased; and

(iii) the increase in imports described in clause (ii) contributed importantly to such workers' separation or threat of separation and to the decline in the sales or production of such firm.

The investigation was initiated in response to a petition filed on December 23, 2015 by the International Brotherhood of Electrical Workers, Local Union 97 on behalf of workers of Huntley Power LLC, a subsidiary of NRG Energy, Inc., including on-site leased workers from Pontoon Solutions, Inc., Tonawanda, New York (herein known as "Huntley Power LLC" or "workers' firm"). The workers' firm is engaged in activities related to the production of electrical generation, capacity and ancillary services.

During the course of the investigation, information was collected from the petitioner, workers' firm, and major declining customer.

Section 222(a)(1) has been met because a significant number or proportion of the workers in such workers' firm have become totally or partially separated, or are threatened to become totally or partially separated.

Section 222(a)(2)(A)(i) has been met because the sales and/or production of electrical generation, capacity and ancillary services by Huntley Power LLC have decreased absolutely.

Section 222(a)(2)(A)(ii) has been met because customer imports of articles like or directly competitive with the article produced by Huntley Power LLC have increased.

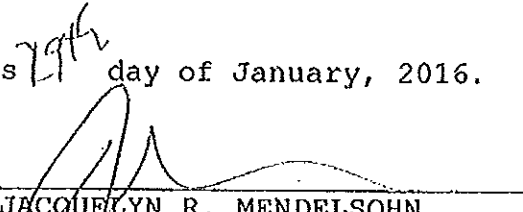

Finally, Section 222(a)(2)(A)(iii) has been met because increased customer imports contributed importantly to the worker group separations and sales/production declines at Huntley Power LLC.

Conclusion

After careful review of the facts obtained in the investigation, I determine that workers of Huntley Power LLC, a subsidiary of NRG Energy, Inc., including on-site leased workers from Pontoon Solutions, Inc., Tonawanda, New York, who are engaged in activities related to the production of electrical generation, capacity and ancillary services meet the worker group certification criteria under Section 222(a) of the Act, 19 U.S.C. § 2272(a). In accordance with Section 223 of the Act, 19 U.S.C. § 2273, I make the following certification:

"All workers of Huntley Power LLC, a subsidiary of NRG Energy, Inc., including on-site leased workers from Pontoon Solutions, Inc., Tonawanda, New York, who became totally or partially separated from employment on or after December 22, 2014 through two years from the date of certification, and all workers in the group threatened with total or partial separation from employment on the date of certification through two years from the date of certification, are eligible to apply for adjustment assistance under Chapter 2 of Title II of the Trade Act of 1974, as amended."

Signed in Washington, D.C. this <sup>7<sup>th</sup></sup> 21 day of January, 2016.
