

Onsite Flu Clinic Schedule Upstate New York

This year, onsite clinics are intended for field operations, control room employees and anyone *required* to work onsite. If you are currently working remotely and not *required* to work onsite, please *don't* come onsite for a flu vaccine! Please visit your local neighborhood pharmacy for a vaccine*.

Buffalo- 144 Kensington/93 Dewey Ave	16-Sep	7:00am-11:30am

Saratoga- 40 Weibel Ave	21-Oct	7:00am-11:00am

room location will be posted
locally at each site!

Sites not listed here will be scheduled soon and advertised at a later date!

*Due to the current work-from-home status of most office-based employees, we won't be scheduling onsite clinics at our office buildings; Reservoir Woods, Metrotech, or Syracuse Office Complex. We strongly encourage employees working remotely and typically based at these sites to visit a local pharmacy for a flu vaccine this Fall. CVS**, Walgreens and most other neighborhood pharmacies offer flu vaccines with no copay, no out-of-pocket cost. If you are not required to work onsite, please DO NOT come onsite for a flu shot this year.

** At CVS, visit the pharmacy flu clinic, not the Minute Clinic, to avoid out-of-pocket expense.
