

# C-56137S Traveling Operator C

**Description:**

**Pay Rate:**

**Location: Watertown**

**Supervisor: Matthew Gardner**

**Unposting Date: 08-06-2024**

**About the Position:**

**In the Western Division:**

Under direct supervision, on a shift, to perform the duties of an inspector and operator of a large group of unattended stations and network vaults, including transmission and distribution stations and network vaults in the areas listed below. Duties include the starting and stopping of large rotating machines and the responsibility for the proper operation of substation equipment of various kinds, such as that found in complicated stations having a layout and arrangement of equipment which requires considerable knowledge of and attention to operating procedure. Duties include frequently working alone and acting as controller on local mark ups whenever protection is required at unattended stations or network vaults. Other duties include inspection of equipment, certain cleaning assignments, taking readings, and the performance of routine tests.

**In the Central and Eastern Divisions:**

Under general supervision, on a shift or schedule to operate and be responsible for all activities involved in the operation of the unattended generating stations, substations and/or network stations (vaults) in the areas listed below. Duties to include:

- Periodic inspection of equipment and properties;
- Perform routine tests;
- Act as controller on mark ups;
- Direct operation of lines and other stations as required;
- Assist other operators as required;
- Maintain clean and orderly conditions;
- Do minor maintenance work, or when on schedule to work in a maintenance crew as required.

**Job Qualifications:**

- Should have four years' experience in station operation and a thorough knowledge of the layout, equipment and operating requirements of the stations to which assigned.
- Must pass validated aptitude test.
