

W-41514 Trouble Mech D Hot Stick

Description:

Pay group: 24

Location: Buffalo

Supervisor: Nick Sobecki

Unposting Date: 03/07/2023

About the Position:

Under general supervision, on a shift, to perform work in the field necessary for the location and permanent repair, where possible, of all types of trouble on the distribution and transmission system including that involved in the most complicated and congested types of construction, including that which may require the use of a complete set of hot line tools, do switching and direct the work of a Trouble Mechanic C-Hot Stick or other assistants as required. To perform uncomplicated make ready work for telephone and CATV (maximum 1/0 triplex), install or remove single phase service (critical to customer), install and remove street light fixtures (burned out heads, non-routine) in critical areas during off hours.

Job Qualifications:

- Must have all qualifications of Trouble Mechanic C-Hot Stick and should have at least two (2) years' experience as Trouble Mechanic C and/or Trouble Mechanic C-Hot Stick;
- Must be able to exhibit analytical ability and judgment in situations not covered by standard instructions.
- Must pass evaluation test.
- Must pass validated aptitude test.

NOTE: These specifications have been defined by a Memorandum of Understanding Regarding Trouble Mechanics, dated June 1, 1993.

This classification is for use only at the following locations:

Western Division

- Buffalo
- Niagara Falls

Central Division

- Syracuse
